

# NHS Evidence – eyes and vision presents the 2010 Retinal Vein Occlusion Annual Evidence Update from 15<sup>th</sup> – 21<sup>st</sup> March 2010

[www.library.nhs.uk/eyes](http://www.library.nhs.uk/eyes)

The **2010 Retinal Vein Occlusion Annual Evidence Update** highlights the key evidence base underpinning current interventions, new evidence that is likely to inform a change in clinical practice, emerging knowledge from key randomised controlled trials and current uncertainties in the effectiveness of treatments.

**Topics include:**

- Epidemiology
- Cardiovascular morbidity and mortality associated with retinal vein occlusion
- Diagnosis
- Management of Central Retinal Vein Occlusions
- Management of Branch Retinal Vein Occlusion

Topic summaries have been provided by the Royal College of Ophthalmologists Retinal Vein Occlusion Interim Guideline Development Group.
