EVANS, Claire

Present Study:

- Bachelor of Nursing (Adult) - Glamorgan University

Manifesto

I wish to stand for ANS Exec Committee because I am committed to making a difference, hence undertaking a nursing degree. As a person I am a good team player who has enjoyed being part of and leading many teams. I am a caring and nonjudgmental person who is easily approachable; students from all over Wales will not find it difficult to approach me with matters that need to be brought to the committees attention.

A little about me. I am an active member of St John Ambulance and enjoy playing rugby along with many other hobbies but these are the two which keep me entertained the most. In order to fit these in with my studies, I need to be able to manage my time and ensure that I can be committed to both of these. Both these activities require me to work in a team which is an environment in which I thrive.

I would like to be a member of the committee because I enjoy discussing current nursing affairs with others. I keep up to date with current affairs in nursing, especially with matters affecting student nurses.

Finally, my main reason for applying for this position is because I believe all student nurses across Wales should have a voice at national level. I am committed to doing this by ensuring two way communication is kept open between nursing students and the committee.

PERRY, Mark

Present Study:

- BN (Hons) Adult Nursing, North East Wales Institute (NEWI)

Manifesto

I am 37 years old and have 4 children. I have worked in healthcare as a volunteer carer since 1990. For the past 6 years I have worked as a HCSW in mental health as a team leader and for an agency in various environments. I am finally fulfilling a dream I have had for many years to undertake my Nurse training.

I have always been the type of person who enjoys being involved and would welcome the opportunity to represent my fellow nursing students in Wales on the ANS.

If given the chance to represent you, I would ensure that your voice is heard. The nursing students of today are of course the staff nurses of tomorrow and I feel it is important we are able to have our say now. I believe we should be given the opportunity to make a difference now to the future of nursing, participate in developing future policies and be able to influence our education and the future of nursing education.

The ANS is our chance to make a real difference to the future of nursing and increase the standard of health care that is delivered.

My promise is to listen to what you have to say and to what you believe should be happening, then to represent you fairly and honestly.

Together I believe we can make a difference.
