

ALLERGYWISE

Anaphylaxis training and resources

The Anaphylaxis Campaign has developed AllergyWise, an online course, based on its successful school nurse training in anaphylaxis and severe allergy.

AllergyWise for healthcare professionals is accredited by the Royal College of Nursing (RCN) and endorsed by the British Society of Allergy and Clinical Immunology (BSACI). The course is specifically designed for healthcare professionals including school or nursery nurses, health visitors, those with responsibility for training teachers and other staff working in schools and early years settings.

The online training programme, which takes approximately 6 hours to complete, will enable users to improve their knowledge through self-directed study, wherever and whenever it suits them and as many times as they wish within their 2-month licence period.

The programme will emphasise the key messages of:

- recognising symptoms
- avoiding allergen exposure
- knowing what to do if a reaction does occur.

In addition to the online training, the package for healthcare professionals includes:

- **Resources** – to help trainers run their own anaphylaxis training. The pack comprises a lesson plan and advice on preparation, a PowerPoint presentation with film clips, speaker notes, handouts and trainer adrenaline injectors.
- **Optional tutor-led forum** – to encourage dialogue with others on the healthcare professional course, so no one feels isolated or unsupported.

For further details on how to order, visit www.anaphylaxis.org.uk and click on AllergyWise or call us on 01252 546100.

The AllergyWise online training courses and the accompanying resource pack for healthcare professionals have all been written by Sue Clarke, Nurse Advisor to The Anaphylaxis Campaign and author of the original award-winning AllergyWise training. The content has also been reviewed by other medical experts to ensure these highly valued resources are medically validated and approved.

The development of AllergyWise online has been made possible by funding from Lincoln Medical Ltd.

The Anaphylaxis Campaign provides tailored services for individual and clinical professional members and also has a corporate membership programme. Visit our website www.anaphylaxis.org.uk

Also available

AllergyWise for families, carers and individuals – aimed at those who want to know more about anaphylaxis, as someone who is living with severe allergy themselves or a relative, carer, childminder, friend or an employer wanting to know how to manage a severe allergic reaction.
