

# FORTIFY YOURSELVES AGAINST THE INFLUENZA

BY A LIBERAL USE OF

# BOVRIL

Which, during the last few years, has established itself throughout Europe and America as the most perfect antidote, the most certain preventive and approved Cure of the Epidemic in all its stages.

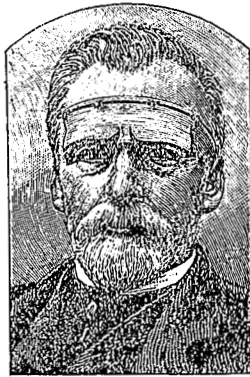

## A MAGISTRATE'S OPINION.

To the Editor of "THE DAILY POST."

"SIR,—On Thursday I had a smart touch of Influenza, and have achieved such a rapid cure that it may be of service to your readers to know the means used. On Thursday I was totally incapacitated, on Friday convalescent, on Saturday quite well. Treatment each day—four dessert-spoonfuls of Cod-Liver Oil, one after each meal; four Teacups-full of BOVRIL midway between meals, and last thing at night. I believe this will cure any one.—Yours, &c.,
