

Pre and Post birth support from XXXXXX Community LD Nursing Team Plan

Name :

DOB :

NHS: Number: 000000000

Pen Picture

XXXXXXXXXXXX has a diagnosis of a Mild Learning Disability and a Borderline Personality Disorder. XXXXXXXXXXXX lives independently in her own flat, her husband is not currently living with her though spends a lot of time at the flat. Her home conditions are very poor with a very high odour due to poor personal hygiene, lack of cleaning and several pets who can urinate/defecate in different areas.

Historically when XXXXXXXXXXXX was feeling stressed or under a high amount of pressure, she would respond to this by visiting GP and obtaining medication, this behaviour has not been present for many years. More recently due to current pregnancy and the involvement of social services xxxxxxxxxxxx has been feeling under a high amount of stress. At this XXXXXXXXXXXX has been complaining of various ailments in regards to her pregnancy, such as high amounts of pain, feeling nausea and not eating or drinking and reduced foetal movements. Some of these have been found to not be accurate, though XXXXXXXXXXXX will continue to report these issues to health staff, although she is usually more honest with LD team staff.

XXXXXXXXXXXX has had other children who are not in her care due to her and her husband inability to care for them, and who were both adopted. XXXXXXXXXXXX is aware that when she has this baby, that the baby will be going to a foster carer, although she disagrees with what social services has said and feels she can be a good mother to her children.

Current TEWV LD Nursing Team Involved Staff

-

Contact Details

- **Monday – Friday 9-5 (01642) 368555 (if named staff are not available request to speak to duty worker)**
- **Out of Hours/weekend contact for Emergencies/Urgent matters:, ask to speak with nurse on duty who if required, will contact the nurse on call.**

Plan when XXXXXXXXXXXX self attends at hospital

- LD Nursing Team staff to support XXXXXXXXXXXX to ante-natal appointments for scans, or with consultant to aid in her understanding of information and to share information with professionals
- LD Nursing team to be informed of XXXXXXXXXXXX attending outside of ante-natal appointments, and if any medication has been prescribed

Plan when XXXXXXXXXXXX has given birth

- LD Nursing Team to be contacted when XXXXXXXXXXXX has given birth to her baby, the LD staff member will visit XXXXXXXXXXXX as soon as possible, **this is not to be via on call/out of hours unless there is an urgent mental health situation with XXXXXXXXXXXX, though XXXXX Psychiatry Liaison Team can also be contacted**
- LD Nursing Team staff will visit XXXXXXXXXXXX regularly whilst she is in hospital after the birth to monitor her mental health and well-being, and to offer ongoing support to her and Her husband
- LD Nursing Team staff to be invited to the discharge meeting to be able to support XXXXXXXXXXXX and Her husband with this, when XXXXXXXXXXXX discharge is known LD staff will then take XXXXXXXXXXXX and xxxxxxxxxxxx home.
- LD Nursing Team staff will continue to have regular contact with XXXXXXXXXXXX when she has returned home to monitor her mental health and well-being
