

RCN Nursing in Justice and Forensic Health Care Forum event

Trauma-informed approaches to care in secure justice settings

This free event will provide participants an opportunity to learn about innovations and developments in trauma-informed care in secure justice settings and offer attendees the chance to shape future practice. The programme hosts a diverse range of expert speakers from criminal justice backgrounds which will give participants a unique insight into practice innovation and policy in this important area of care.

Further information on the RCN Nursing in Justice and Forensic Health Care Forum is available [here](#)
