

UK Committee on Children and Young People's Nursing

12 June 2018

13:00- 16:00

Room 102, Royal College of Nursing, 20 Cavendish Square, London, W1G 0RN

Update All Wales Senior Nurse Forum

Name: Eirlys Thomas

Key Priorities

Development of an all Wales Paediatric Acuity tool

This project is working in collaboration with Welsh Government and Public Health Wales. There is a planned national conference in June 2018.

- Provide an update on the overall progress of work streams with reference to the individual work stream plan and risk log.
- Report key achievements.
- Identify the next steps, actions and timescales.
- Highlight risk and areas of concern, making recommendations to address issues identified.
- Provide an audit trail relating to the work undertaken by the work stream

E- Documentation

- All Wales Approach to move towards e-documentation, supported by Welsh Government.
- Trial of CHAI in two Health boards across Wales.
- Roll out of digital mobilisation for community practitioners linking health and social care. This is supported by Welsh Government.

Commissioning for Complex Care

- This is an all Wales approach to commission services for children with complex Health and social needs.
- This is supported by Welsh Government.

Review of Continuing Care Guidance 2012

- Review underway by Welsh Government and key stakeholders

Currently there has been a consultation on Special schools in Wales.

Briefing Paper underway by the forum on Priorities for Children's Nursing in Wales.

Information within Highlight reports to inform other briefing papers and reports to All Wales Nursing Staffing Group, Directors of Nursing within Welsh Health Boards and Trusts and to the CNO/ Welsh Government.

[Organisation's name] update

Name: [of person responding to the report]

Claire O'Mara Chair of the NNA and Lead Nurse for the East of England Neonatal ODN.

The NNA are currently working very closely with the CRG, there are 2 work streams under way;

Models of Care - looking at how neonatal care is organised.

Workforce - both medical and nursing, recommendations and new ways of working.

Both pieces of work will underpin the Neonatal Critical Care Report - the first draft of which has been embargoed by NHSE.

The Neonatal Peer Reviews are completed with all units now having received their final report. The Quality team will publish an overarching report but common themes are;

- - Lack of 2 year follow/inconsistencies recording the data entries
 - Lack of psychological support /OT/physio/SALT
 - Lack of dedicated time for lead nurses ie infection control/bereavement
 - Inconsistent visiting times
 - Storage of breast milk/lockable fridges/tamper proof labels
 - Lack of availability of funding for QIS training
 - Environmental - ie unit refurbishment was necessary
 - Numbers of infants having their IV antibiotics administered on the NICU rather than at the cot side by maternity
 - Transitional/Outreach provision
 - Medical rota inadequacies.
 - Nurse staffing.
-
