<b>Outcomes/Outputs:</b>	
Provide a brief description of the project and reasons for development:	Evidence suggests that nurses are benefiting from virtual learning as a form of CPD and career development. CPD has not always been accessible and has been limited during the pandemic for fertility nursing staff and the forum recognise that webinar formats could ensure that nurses throughout the UK can access the learning opportunities. Members will be able to access evidence-based webinars as a form of CPD and remain updated with relevant information from the sector. This is also an opportunity for the Fertility Nursing Forum to engage with members and provide an update on the work of the forum. The project will ensure that information in webinar format is evidenced based, current and relevant to the sector and will be made available to members via the Forum web pages. Topics will be decided in advance by the Forum committee after reviewing current themes and trends in the sector that are relevant to fertility nursing staff.
