Public Health England update

Data analysis intention:

- convene an intelligence network of internal and external experts
- work with health protection colleagues to see what data we can take from the outbreak response, including new care home reporting
- use established data sets, ie ONS
- collaborate with colleagues to see what insights external sources of data such as LeDeR can add
- collaborate with academic colleagues, in the UK and internationally

- acknowledge the complexity of interpreting data and importance of getting that right
- draw conclusions carefully

NHSE/I update:

- Issues raised by stakeholders
- Supporting patients who are unwell with COVID-19 – latest publications
- latest publications - updated CeTR planner, updated ‘Managing Demand and Capacity’, Patient, Carer and Family Engagement and Communication during the Coronavirus (COVID-19) Pandemic

- What are the main questions you're getting from members of your network?
- What is the most helpful thing you feel you've been able to do for them?
