Royal College of Nursing – Submission to the Open Public Consultation of the mid-term evaluation of the 3rd Health Programme 2014-2020

The Royal College of Nursing strongly supports European Commission activity in the field of health, both through the EU health strategy and the third EU health programme.

The Royal College of Nursing is a member of the European Public Health Alliance and endorses its submission to this consultation below.

February 2017

About the Royal College of Nursing

The RCN is the voice of nursing across the UK and the largest professional union of nursing staff in the world.

INTRODUCTION

The EU ensures that human health is protected as part of all its policies, and to work with its Member States to improve public health, prevent human illness and eliminate sources of danger to physical and mental health. However, the EU Member States have the primary responsibility for formulating and implementing health policy and delivering healthcare services. The EU's competence only extends to supporting, coordinating or supplementing actions of the Member States.

One of the main ways in which the EU supports, coordinates and supplements actions by the Member States is the third programme for the Union’s action in the field of health (2014-2020) (hereinafter: “3HP”). The 3HP provides financial support for actions to address a number of important health-related challenges facing European citizens, governments and health systems. The 3HP supports action across the EU from public authorities, research and health institutions, NGOs, international organisations and – in certain cases – private companies. The total budget for the seven years of its duration is €449.4 million. The 3HP addresses major health challenges facing MS from risk factors (such as use of tobacco and harmful use of alcohol) to chronic and rare diseases, responding to cross border health threats (e.g. Ebola and Zika viruses) as well as ensuring innovation in public health to name just a few areas. For more information on the 3HP, please visit the websites of DG SANTE or CHAFEA.

This consultation is an opportunity for any interested parties to express their views and opinions on the 3HP. It is a part of the ongoing mid-term evaluation of the 3HP. The consultation covers:

- The objectives and priorities of the 3HP, and the extent to which these are appropriate and in line with health needs in the EU
- The way the 3HP is implemented, and the extent to which this is effective and efficient
- The overall added value and usefulness of the 3HP

The results of the public consultation will be used together with other evidence to inform the mid-term evaluation of the 3HP. The European Commission will publish a Staff Working Document, including a summary of the results of the consultation, in the second half of 2017.
* Privacy Statement

Before completing the form, please read carefully the privacy statement to conform to European data protection regulations.

☐ I have read and accept the terms and conditions related to this meeting

In case you wish to contact the Unit responsible for the event, please send an email to: SANTE-HEALTH-PROGRAMME@ec.europa.eu

I. KNOWLEDGE OF AND EXPERIENCE WITH THE 3HP

1.1. How would you describe the extent of your knowledge of:

<table>
<thead>
<tr>
<th></th>
<th>Detailed, in-depth knowledge</th>
<th>Some knowledge</th>
<th>Only very basic knowledge</th>
<th>No knowledge at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>EU health policy?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>The 3HP?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

*1.2. Are you working on health issues that are closely related to (any of) the ones supported by the Health Programme?

☐ Yes
☐ No

*1.3. Are you aware of any activities that were funded by the 3HP that are relevant to your work?

☐ Yes
☐ No
1.4. Have you ever consulted, used, or participated in any of the results, services or products stemming from activities supported by previous Health Programmes? Please tick the following examples, as appropriate:

The Commission encourages dissemination of Health Programme outputs and results, however linking to the following external websites from this webpage should not be taken as an endorsement of any kind by the European Commission.

- [ ] The European Code Against Cancer
- [ ] European screening guidelines on Breast cancer
- [ ] European screening guidelines on Colorectal cancer
- [ ] European screening guidelines on Cervical cancer
- [ ] The Orphanet database and recommendations for rare diseases
- [ ] The Eudamed database for medical devices (only accessible to Member State authorities)
- [ ] The Euripid database for the pricing of medicines
- [ ] Materials on health technology assessment
- [ ] Training packages, e.g. on cancer screening, migrants' and refugees' health, capacity building in the preparation and response against health threats in air and sea travel
- [ ] Best practices for tackling health inequalities
- [ ] Best practices for the diagnosis and treatment of HIV/AIDS, tuberculosis and hepatitis
- [ ] Scientific Opinions from the Independent Scientific Committees
- [ ] Advice from the Expert Panel for investing in health
- [ ] Information campaigns (e.g. Ex-smokers are unstoppable)
- [ ] Reports (e.g. Health at a Glance Europe, The Economics of prevention, Country Health Reports, EU Health Report, different Reports on the monitoring of health strategies on nutrition, alcohol etc.)
- [ ] Comparable health data (e.g. ECHI indicators)
- [ ] Others

Others, please explain

* 1.5. Have you or the organisation / institution you represent ever applied for funding from the 3HP and/or its predecessors?

- [ ] Yes, I/we have applied for funding from the 3HP
- [ ] No, I/we have never applied for funding from the 3HP
- [ ] Don’t know
1.6. If you have never applied for funding from the 3HP, please tell us why (tick all that apply)

- The opportunities and activities are not relevant for me and/or my organisation
- Lack of information on opportunities
- Lack of information on how to apply
- The co-funding rates are not attractive enough
- Excessive administrative burden
- Lack of language skills
- Lack of partners in other European countries
- Other, please specify

Other (please specify)
1.7. The 3HP is supporting cooperation at EU level between relevant health organisations, national health authorities, academia and non-governmental bodies. To what extent do you agree with the following statements?

<table>
<thead>
<tr>
<th>Statement</th>
<th>Strongly agree</th>
<th>Agree</th>
<th>Neither agree nor disagree</th>
<th>Disagree</th>
<th>Strongly disagree</th>
<th>Don’t know</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>The cooperation is essential and should be maintained</em></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><em>The 3HP should be expanded to include other health areas</em></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><em>In practice, the 3HP’s results (at least at this mid-term stage) are not visible and the cooperation should be abandoned</em></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
1.8. In your opinion, what do you consider to be the main way(s) in which the 3HP is contributing (or could contribute) to addressing health-related challenges?

In future, the 3HP and future health programmes should increase focus and resources for real world implementation of measures, policies and programmes proven to improve public health and reduce health inequalities:

1. Facilitate and support national (and regional / subnational) governments' implementation of WHO/OECD recommended 'Best buys' to prevent chronic diseases, including mental health conditions on a par with other NCDs, in line with commitment to SDG3 for 2030 and EU priorities for a productive workforce and sustainable growth.

2. Increase resources and support (including expertise, regulations, targets, guidelines, resources, infrastructure, monitoring, etc.) for member states, including resources for the ECDC, to achieve antimicrobial resistance reduction targets. Closer coordination with other policies, programmes and measures including agriculture, trade, internal market, consumer protection, environment, industrial policy, structural funds, etc.

3. Research future EU-wide demand scenarios for health and social care workforce, look into current (unrecognised, unpaid, informal) carer workforce, as part of EU jobs agenda in coordination with other policy areas, notably Semester recommendations and measures under Social Rights Pillar.

4. Monitor, compare, report and support national governments in implementing universal and fair access to healthcare and social care as per SDG3, explicitly investigating and supporting full inclusion of all groups, including geographically, socially, economically isolated, institutionalised groups (social care, prisons, etc), migrants and refugees, etc.

5. Systematically apply the Health in All Policies principle, including ex-ante and ex-post health impact assessments of all EU policies and programmes. Proposals to amend legislation and programmes where shown to exacerbate health inequalities or health harm.

1.9. What are the main aspects (if any) that need to be changed or improved in your opinion?

As per 1.8 above. Go beyond best practice exchange, shift focus to putting measures for better health and reduced inequalities into practice.

II. THE 3HP OBJECTIVES AND PRIORITIES

The 3HP aims to address a number of important health-related challenges facing EU citizens, governments and health systems. To do this, it pursues a series of objectives and thematic priorities, please see the factsheet about the 3HP for more information.
2.1. Do you think the EU should provide funding for actions in order to...?

</tr>
<tr>
<td>The objectives and priorities of the 3HP are consistent with wider EU policy objectives, including the Europe 2020 strategy</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
2.3. If you have any concerns about the relevance and coherence of the 3HP and its objectives, please briefly summarise them here.

Objectives need to be updated to be relevant to current and near-future health challenges, and to reflect the commitment to the SDGs.

The description of the objectives should most notably be updated to include action on the cross-border (global) health threat posed by antimicrobial resistance (which cannot be accurately described as an epidemic or pandemic, but an even more pressing scale and urgency), as well as the cross-border health threats linked to the development of the internal market and EU trade policies, noting that e.g. diet is the top determinant in the development and prevalence of (preventable) chronic diseases in the EU.

Looking ahead, there should be better coherence between objectives (health improvement, protection, reduction of inequalities, sustainable health systems, etc.), and measurable outcomes from actions, programmes and policies. These must go beyond best practice exchange to real world implementation with monitored, measurable health impacts.

The Commission and agencies also need to ensure coherence between Health objectives in the Treaties and programmes with all other policy areas and programmes. E.g. 'Unstoppable' tobacco campaign is actively undermined by (more funding support for) tobacco subsidies still available under EU agricultural policies and programmes.

2.4. The 3HP contains 23 thematic priorities, gathered under four specific objectives:

1. Promote health, prevent diseases, and foster supportive environments for healthy lifestyles
2. Protect citizens from serious cross-border health threats
3. Contribute to innovative, efficient and sustainable health systems
4. Facilitate access to better and safer healthcare for EU citizens

Please select up to five priorities that you consider to be the most important, and up to five that you consider to be not relevant.
<table>
<thead>
<tr>
<th>Most important</th>
<th>Not relevant</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1.1. Risk factors such as use of tobacco and passive smoking, harmful use of alcohol, unhealthy dietary habits and physical inactivity</strong></td>
<td>☉</td>
</tr>

<td>☉</td>
</tr>
<tr>
<td><strong>4.1. European Reference Networks</strong></td>
<td>☉</td>
</tr>
</tbody>
</table>
2.5. If there are any other important thematic priorities you believe the 3HP should support in the future, or amendments to the existing priorities, please list them here.

Universal access to healthcare and social care;
Initiatives to reduce prices of medicines (including e.g. clinical trials transparency, joint procurement, review R&D incentives and conditionalities, pricing transparency, etc.);
Encouraging investment in (public) health, in line with sustainable growth, including future world of work research taking into account demand for health workers and health/social carers.

III. IMPLEMENTATION

The 3HP has a total budget of €449.4 million (2014-2020), which is used to support:

- Cooperation projects at EU level (via project grants)
- Actions jointly undertaken by Member State health authorities
- The functioning of non-governmental bodies (via operating grants)
- Cooperation with international organisations (via direct grants)
- Studies and other service contracts to cover specific needs related to the support of EU health policies

The 3HP is implemented on the basis of Annual Work Programmes developed by the European Commission in consultation with representatives of the countries that participate in the 3HP (via the Programme Committee). An executive agency (CHAFEA) is responsible for implementing the Programme; its tasks include issuing calls and evaluating proposals, disbursing payments, monitoring actions and disseminating the results. National Focal Points in Member States promote opportunities arising through the Programme. An infographic showing the different roles can be found here.
3.1. To what extent do you agree with the following statements about the implementation of the 3HP?

<table>
<thead>
<tr>
<th>Statement</th>
<th>Strongly agree</th>
<th>Agree</th>
<th>Neither agree nor disagree</th>
<th>Disagree</th>
<th>Strongly disagree</th>
<th>Don’t know</th>
</tr>
</thead>
<tbody>
<tr>
<td>The types of funding mechanisms used by the 3HP are appropriate to achieve the objectives of the programme</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>The prioritised actions in the Annual Work Programme permit the optimal involvement of health actors and stakeholders’ groups by making appropriate use of the different funding mechanisms</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>The 3HP includes appropriate measures to involve all Member States, including those with lower incomes</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
3.2. If you have any (additional) concerns about the 3HP and the way in which it is implemented, please briefly summarise them here and provide us with an indication of which area(s) they correspond to (tick all that apply):

- Eligibility / funding arrangements
- Application process
- Administrative burden
- Dissemination of results
- Other (please specify)

Across the 3HP and especially with regard to the joint actions, it would be appropriate to report on SMART indicators to show health (inequalities) impact.

Whilst results of projects, JAs, etc are disseminated well within European health policy circles, they also need to reach decision makers in other policy areas at national, regional, local and supranational levels, e.g. Finance Ministries, city administrations, etc. as well as other global regions.

Request to monitor to what extent research projects are followed up with (scalable, replicable) policy action or recommendations are implemented to result in (measurable) health benefits.
3.3 To what extent do you agree with the following statement about the level of awareness of the 3HP?

<table>
<thead>
<tr>
<th>Strongly agree</th>
<th>Agree</th>
<th>Neither agree nor disagree</th>
<th>Disagree</th>
<th>Strongly disagree</th>
<th>Don’t know</th>
</tr>
</thead>
</table>

*The results of actions funded by the 3HP are sufficiently disseminated and promoted to those who might be able to make use of them*

3.4. Do you have other specific views that could not be expressed in the context of your replies to the above questions?

EU added value is clearest in a focus on internal market measures to tackle cross-border health threats, not only including communicable diseases and pandemics, and especially a stronger focus on AMR, but also recognising that all member states face the same threats from cross-border determinants including unhealthy dietary environments, alcohol, environmental health threats (including air quality, climate change), consumer safety, tobacco, sedentary work and mobility, and the impacts of employment and social precarity on (mental) health.

The importance of prevention (of chronic diseases, communicable diseases and AMR) in economic and health system sustainability should be highlighted in Health contributions to EU economic, budget, taxation, social and employment policies and programmes. Much closer coordination is needed to respect the Health in all Policies requirement.

In many areas, necessary health protection and disease prevention responses are well known and undisputed in the health community (e.g. WHO/OECD best buys) – focus should shift away from 'best practice' exchange to facilitation and support for implementation, including dismantling barriers in EU legislation in other areas where necessary.

In order to respect national competence and recognise the role played by other organisations notably WHO and OECD, focus should be placed less on comparative health systems organisation recommendations and research than is currently the case.
IDENTIFICATION OF RESPONDENT

*Please indicate whether you are responding to this consultation as an individual or on behalf of one of the following types of organisations / institutions?

- Individual / private person
- Public authority (national, regional or local)
- International organisation
- Academic / research organisation
- Professional association or trade union
- Non-governmental organisation
- Private company
- Other, please specify
* Please state your country of residence/establishment

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Greece
- Hungary
- Ireland
- Italy
- Latvia
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Poland
- Portugal
- Romania
- Slovak Republic
- Slovenia
- Spain
- Sweden
- United Kingdom
- Other

If you sent in comments in a language other than English, please indicate in which language you have replied.
Which of the following best describes the field in which you or the organisation or institution you are representing are mainly active?

- [x] Health / public health policy making and planning
- [ ] Provision of healthcare services
- [ ] Health professional(s)
- [ ] Health research / education
- [ ] Patients and health service users
- [ ] Other, please specify

* If replying on behalf of an organisation or institutions, is your organisation or institution registered in the EU Transparency Register?

- [ ] Yes
- [ ] No
- [ ] Not applicable
If yes please indicate your Register ID number

18941013532-08

If you are responding on behalf of an organisation or institution, please register in the Transparency Register. If your organisation/institution responds without being registered, the Commission will consider its input as that of an individual and will publish it as such.

* Please indicate your preference for the publication of your response on the Commission’s website:

- I consent to publication of all information in my contribution, including my personal data
- I do not consent to the publication of my personal data as it would harm my legitimate interests. My contribution may be published in an anonymous form
- I prefer to keep my contribution confidential. (it will not be published, but will be used when analysing the results of the consultation)

(Please note that regardless of the option chosen, your contribution may be subject to a request for access to documents under Regulation 1049/2001 on public access to European Parliament, Council and Commission documents. In this case the request will be assessed against the conditions set out in the Regulation and in accordance with applicable data protection rules.)

* Copyright clearance

Any submission made by you on this website represents an agreement that the data you submitted will be used by the European Commission for the purposes of the mid-term evaluation of the 3rd Health Programme. This means that your contributions may be published individually or be part of a synthesis and referred to as meaningful example. Following your submission you also understand that you authorise the European Commission to reproduce, translate, print, publish and make available your contributions in print and electronic format and permit others to use the content or parts of it in accordance with Commission Decision of 12 December 2011 on the reuse of Commission Documents.

- I took note of the above copyright clearance conditions and I agree with it
- I don’t agree, please keep my contribution as specified under the abovementioned terms, but only for internal use in the Commission
