Innovation case studies

The Academic Health Science Networks (AHSN) Atlas is a platform for the very best examples, from across the 15 AHSNs in England, of how to spread high impact innovation across the health and care system. Case studies include:

- [person and community centred health approaches](#)
- [developing community education provider networks in primary care](#)
- [transforming Attention Deficit Hyperactivity Disorder \(ADHD\) care](#)
- [improving the patient experience using video interventions.](#)

Alternatively, visit the [AHSN Atlas website](#) to search the full range of projects.

Increasing impact

The National Institute for Health and Care Excellence (NICE) provides national guidance to improve the quality of health and social care. As a nursing professional, there are a number of ways you can participate in the development of NICE guidance.

Research training

The European Academy of Nursing Science 2019 summer school takes place 1-12 July in Lisbon, Portugal. It is a unique opportunity for nurses undertaking doctoral studies to participate in a three year programme of annual summer schools.
