

Royal College
of Nursing

**Proud to be
a Nursing
Champion**

Become a Nursing Champion

As a Nursing Champion you will be an advocate for the local nursing community in your constituency and represent their views in Parliament.

What you can do to support nursing staff in your area

Your support for nursing staff is invaluable. As an MP, you have the opportunity to show your constituents how much you value the work of nursing staff and the care they deliver every day for patients and families.

We will write to you and share information about our members in your constituency and how you can engage with them. We'll also suggest some actions you can take to champion nursing issues on behalf of the nursing staff in your community.

What we can do for you

We can set up meetings for you with our members, help organise opportunities for you to shadow frontline nursing staff and keep you up to date on key nursing issues.
